Kids Ministry Check-In App

It's Easy to Use!

1. Download the Church Center App from the App Store. It's Free!

2. Create a log in. It will quickly help you set up a user name & password. When prompted to find your church, type in Calvary Assembly of God.

3. Click the Check-in button at the bottom right of the app home screen.

4. Select the children you will be checking in and click Continue. You will be given a QR code.

5. Scan your QR code at the Calvary Kids check-in station. You will receive a label to pick up your child after service.

> Each Sunday, you can open your app before you arrive to the check-in station, select the children you want to check-in (up to 1 hour before service time), and scan the QR code when you arrive.

Want to see it in action? Check out this video:
